

Air Conditioning for Trucks

Cool fresh air on hot days

Warm dry air on wet days

Reduced road noise and increased security

Eberspächer have available a range of air conditioning units for most of the recent Euro IV/V European trucks. The units are integrated into the vehicle's original heater and operate in the same manner as the original equipment option.

Systems are available from a nationwide dealer network and all have a two year* European wide unlimited mileage warranty for both parts and labour.

** Provided the unit is serviced within the first 12 months.*

Systems are Available for most Recent Models within the Following Ranges

- * DAF
- * Iveco
- * MAN
- * Mercedes Benz
- * Renault
- * Scania
- * Volvo
